A TERRITORIAL DELEGATION

Visit the President—Where Cleveland Will Spend the Summer.

Special to the Sentinel.

WASHINGTON, April 11.—A committee of the citizens of the Territories have waited upon President Cleveland, and urged that he investigate the charges of corruption among Federal officials which they stand ready to substantiate. They have also urged him to act in accordance with the plank in the Chicago platform that only residents of Territories shall be appointed to Federal positions in their respective Territories. The President was very much impressed with the home rule agitation, and has promised that the subject shall receive his early and prompt attention. It is understood that Mr. Cleveland has a well defined and positive view on the matter, and has stated that wherever corruption can be proven that the offender will be followed with prompt and sure punishment. His appointments to Federal offices will be based upon a basis of honesty, efficiency and economy. In this he will be supported by all good citizens.

President Cleveland said to your correspondent this afternoon, in answer to a question as to where he would spend the summer: "I think I shall remain here all summer at hard work, if I can do it, and I shall not have more than one week off, and that week I shall devote to fishing in the Adirondacks."

Russia Proposes to Purchase American Steamers.

Special to the Sentinel.

WASHINGTON, April 11.—While preparations for war are being actively carried forward in London and St. Petersburg, an incident came to light in Washington to-day, that proves beyond doubt, that the representatives of these Governments in the Capital are by no means idle. Baron De Struve, the Russian Minister, has opened active negotiations with Secretary of the Navy, who has served many years on the Pacific station. The object of the Russian Government is to obtain by purchase the large fleet of swift, staunch steamers, now engaged in the sugar carrying trade between the Sandwich Islands and this country; and also the fleet owned by the Alaska Fur Company. It is the intention of the Russian Government to purchase these steamers at once given port, and to arm them, and to order them to prey on English commerce in the Chinese and Japanese waters. The officer has the matter under consideration. Should war be declared, however, Secretary Whitney will not permit him to commit any breach of this Nation's neutrality. Pending the declaration of war, however, the Secretary sees no reason why he should not serve the Russian Government, as desired.

Indians in Washington.

Special to the Sentinel.

WASHINGTON, April 11.—Colonel William E. McLean has received his commission as First Deputy Commissioner of Penitentiaries. Colonel McLean will enter upon the duties of his office next Monday. It can not be said that the Colonel will be a green officer. He has been for two weeks studying the routine work of the office, and should General Black be elected to the Commissioner of Penitentiaries, he will be thoroughly equipped to assume the duties.

Vice President Hendricks, Voorhees and Holman had a long interview with the President to-day with reference to the appointment of Internal Revenue Collectors for Indiana. They urged the appointment of Hamilton of New Albany; Henderson of Kokomo; and Dr. Hunter, of Lafayette.

The President intimated that these appointments would be made in the near future.

NEWS OF NATIONAL INTEREST.

Ordered From Duty in Washington to San Antonio, Texas—Russian Minister's Intentions—Panama.

WASHINGTON, April 11.—General George D. Ruggler, of the Adjutant General's office, on duty in Washington, has been ordered to duty at San Antonio, Tex., and General Thomas M. Vincent has been ordered from San Antonio to Omaha, Neb. The order goes into effect June 1.

It is stated on the authority of a naval officer that the Russian Minister to the United States has endeavored to secure the services of a naval officer here in purchasing a number of small vessels used between San Francisco and the Sandwich Islands in transporting sugar. The vessels were to be ordered to-day. I shall open the treaty to-morrow and keep it open. Everything is well here. I am well. I shall open the treaty to-morrow and keep it open.

A committee of the colored citizens of the District of Columbia waited on the President to-day, after inviting him to review the procession of colored societies on Emancipation day, presented a memorial which embodied the following resolution:

"Resolved, That in the name of 70,000 colored people a just recognition of their rights be made by the President of the United States, and that he should, if possible, visit their country and exercise in the evening.

Through an unofficial source, the Interior Department has been informed that the Crow, Cheyenne and Piegan Indians in Northern Wyoming, just south of the city of Helena, are preparing for an outbreak and that the white settlers in the vicinity were in danger.

The Secretary of the Navy, in obedience to the writ of habeas corpus issued by Judge Cox Thursday, brought ex-Surgeon General Philip S. Wales before Judge Cox to-day. Dr. Wales asks to be released from arrest, under which he was placed on April 2 by Judge Cox. He is now being held in custody by the Court Marshal on charges of neglect of duty in the purchase of supplies, etc.

The British Government has requested that the relief which was used in the Greeley relief expedition, be sent to the relief of the famine in the City of Paris, which left New York on the 20th inst. with 200,000 bushels of grain.

The Secretary of the Treasury has received notice from the State Department that the two treaties of 1870, now existing between this Government and the Government of Peru, will terminate by notice from the latter, on the 1st of March, 1886.

Chicago's Drinking Water Impure.

Chicago, April 11.—The supposed impure quality of the drinking water supplied to the city, has been made the subject of investigation by a special committee of experts who visited the city in order to determine the cause of the impurity.

GENERAL GRANT.

His Condition as Stated by His Physicians and Friends.

NEW YORK, April 11.—As Dr. Shady left the house this morning he said that General Grant had passed a very quiet night. He slept peacefully until 2 a. m. without the aid of an anodyne. At that hour he became somewhat restless and an opiate was administered, after which he slept until morning. He took nourishment as usual.

Senator Ransom, with a valise in his hand, entered at 9:30, and Senator Chaffee followed close behind him.

At 10:30 Jesse Grant and wife, nurse and child, and Mrs. Matthews left the house and boarded a Madison avenue car, going down town.

The feeling of safety enjoyed to-day by the family is further evidenced by the fact that Mr. Fred Grant, who has been in the city since the 1st of March, took a morning stroll. They returned at 11:45 a. m. A visitor to the house between 10 and 11 o'clock saw the General in the hall, and she invited him to go into the General's room and see him. General Grant was reclining, and his face was flushed. He was in a comfortable position, and he appeared to be well.

Senator Chaffee, Senator Ransom, Jesse and Fred Grant, and the General were taking nourishment at that time.

When Senator Chaffee left the house, at 12:30, he remarked that the General was not as bright as he had been, and that he was much as anticipated. His greatest regret when viewing the inevitable is that he had not been able to see the General in his last moments, and that the crowning work of his life—his war history—will be left incomplete in an unfinished state. Otherwise, the Federal life and mission is fulfilled, and he is prepared to leave.

At 11:30 Dr. Shady returned. He said he thought he would not leave the General too long alone. He said that the General was not as bright as he had been, and that he was much as anticipated. His greatest regret when viewing the inevitable is that he had not been able to see the General in his last moments, and that the crowning work of his life—his war history—will be left incomplete in an unfinished state. Otherwise, the Federal life and mission is fulfilled, and he is prepared to leave.

With reference to the rumors that the General had been delirious and had been talking incoherently, Dr. Shady said that the General was not delirious, but that he was in a state of unconsciousness. He said that the General was not delirious, but that he was in a state of unconsciousness. He said that the General was not delirious, but that he was in a state of unconsciousness.

Shortly after 10 o'clock Senator Chaffee and General Grant left the house. Dr. Shady said that the General was not delirious, but that he was in a state of unconsciousness. He said that the General was not delirious, but that he was in a state of unconsciousness.

Once during the day the General arose from his chair and walked firmly across his room and returned without evidence of weakness. He said that the General was not delirious, but that he was in a state of unconsciousness. He said that the General was not delirious, but that he was in a state of unconsciousness.

Later in the day the General again left his chair, walked into the hall, and passed along its entire length. He said that the General was not delirious, but that he was in a state of unconsciousness. He said that the General was not delirious, but that he was in a state of unconsciousness.

The General's arm is now a little better. He frequently interprets remarks that prove he has been in a state of unconsciousness. He said that the General was not delirious, but that he was in a state of unconsciousness. He said that the General was not delirious, but that he was in a state of unconsciousness.

It is stated that the General has received a remittance of \$2,000 and interest for several years. It came from a man who had borrowed money from the General's estate several years ago, and whom the General had forgiven the debt.

Another theory. The dealer who supplied General Grant with cigars during his residence here has a new theory of the cause of the General's cancer. He says General Grant did not smoke very strong cigars nor half so many as has been generally supposed. The impression that he smoked constantly is due to the fact that he was having cigars in his mouth. It was his habit to keep a cigar in his mouth sometimes for an hour or two, and when he was in the habit of doing so, the dealer believes that the nicotine from cigars retained in the mouth was the origin of the General's disease.

Saturday's Bulletin.

NEW YORK, April 11.—A. M.—General Grant died comfortably at 11 a. m. He became restless and suffered from pain in his throat. The usual local applications were made, giving partial relief. At 2 a. m. he was, however, the administration of anodyne was demanded. He died at 11 a. m. He was surrounded by his family. His pulse is 68, temperature 99.5.

2:10 p. m.—At the residence of Dr. Shady and Shady at 12 p. m., General Grant was found in a comfortable condition. He has rested all the morning. His pulse is 68, temperature 99.5.

6:30 p. m.—General Grant has been very quiet all the afternoon. He has been sitting in his room surrounded by his family. His pulse is 68, temperature 99.5.

12:30 a. m.—General Grant had, at 11 o'clock, a severe paroxysm of coughing with spasms of glottis. He was relieved. His pulse is 68, temperature 99.5.

More Trouble on the Missouri Pacific.

CHICAGO, April 11.—The "Galveston News" special from Marshall, Texas, says a meeting of the Executive Committee of the Knights of Labor last night considered the new troubles between the machinists and the Missouri Pacific Railroad management in regard to shipping cars to St. Louis and sending other work from the Marshall depot to Marshall, Texas.

A special committee was appointed to-day and waited upon Superintendent Cummings, and notified him that this action was a violation of the contract entered into by the management with the employees at the close of the strike. The committee also demanded the discharge of workers must cease to-day, or trains will be stopped to-morrow. Cummings refused to meet the committee, and the workers were shipped away. This arrangement satisfies the employees and ends the incident.

Body of a Murdered Man Found in a Stable.

JACKSON, Mich., April 11.—Late yesterday afternoon the body of a man, slightly decomposed and eaten by rats, was discovered under the manure in one of the stalls in the Franklin House stables.

The body was crushed, and the man had evidently been murdered and then hidden under the litter in the stall. The body has been identified as that of Henry W. Smith, a farmer near Leoni, who sold a horse to the stableman, the latter being a West. He has considerable money about his person, and it is believed he was murdered for his money.

There is considerable excitement in the city over the murder. A man named Halstead, a former partner of Smith, was arrested for the murder. He is now in custody. The body was found in a stable. The man was killed by a bullet in the back of the head. The body was found in a stable. The man was killed by a bullet in the back of the head.

Information Regarding Winter Wheat.

CHICAGO, April 11.—The Times presents this morning a variety of information in regard to the winter wheat crop. Disputes from the Illinois and Missouri agree upon the conditions which will lessen the yield one-half. Some portions of Ohio certainly hope for an average crop, while the central and western portions are expected to be a failure. Great damage is reported in the southern portions of the State. A crop of nearly 1,000,000 bushels is expected in Missouri, while the decrease in Iowa will bring the product of that State down to 700,000 bushels.

The American Company all carry the British flag, under the statute that they are the only American built craft that can fly the flag of this land. The agent said that Russia has been very aggressive warfare that was possible for her, the statute would prevent the American people from taking advantage of the splendid opportunity which such a condition of things would present for the rearing of their once prized position on the seas. He even suggested that, in the event of war, an extra session of Congress would be called to consider the matter, and that the statute would be amended so that the flag may not recur again in a century. "America's future," said he, "belongs to her, and she has the right to it. She must retain what she lost during the four years enforced lethargy of the national commerce during the civil war. The ocean trade was taken away from her fairly enough, but now is her chance. It is the hour for a great stroke, and she will rise to it."

MRS. POTTER ABROAD.

A New York Society Woman to do the Honors for America in Paris.

NEW YORK, April 11.—There is to be peculiar social brilliancy in the Paris establishment of our new Minister to France. Not since Judge Bigelow held the post has there been anything so full of social interest as the social life of the new Minister. As will be the case with the Hon. Robert McLean takes the place. It was in the last years of Louis Napoleon that the original, unique, and very independent Mrs. Bigelow kept court society in a condition of astonishment, and the stories of her exploits still current in the French capital. Her position as a social leader was not only a social success, but a professional one. She was a social leader, and she was a professional one. She was a social leader, and she was a professional one.

When Mrs. Potter left the house, at 12:30, he remarked that the General was not as bright as he had been, and that he was much as anticipated. His greatest regret when viewing the inevitable is that he had not been able to see the General in his last moments, and that the crowning work of his life—his war history—will be left incomplete in an unfinished state.
